THERE'S ANOTHER METAL ROOF \*\***

# Residential Roofing and Siding

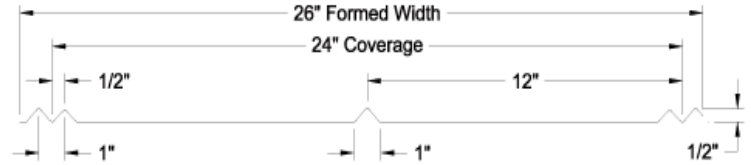

Goldin Metals, Inc. Residential Roofing and Siding panels are highlighted in the Goldin Panel, 5V Crimp, and Goldin Choice Standing Seam lines of panels. Each profile offers residents a low profile and sleek design.

## Goldin Panel

Available in a multitude of colors in 29, 26, and 24 gauge material that will suite almost any need. The Goldin Panel's sleek and classic design has a 36" coverage, providing energy efficiency, sustainability, virtually maintenance-free protection for your home.

## 5V Crimp

Available in a multitude of colors in 26 and 24 gauge material that will suite almost any need. The 5V Crimp's ultra low profile offers the look of elegance, like a standing seam profile, but at a discount.

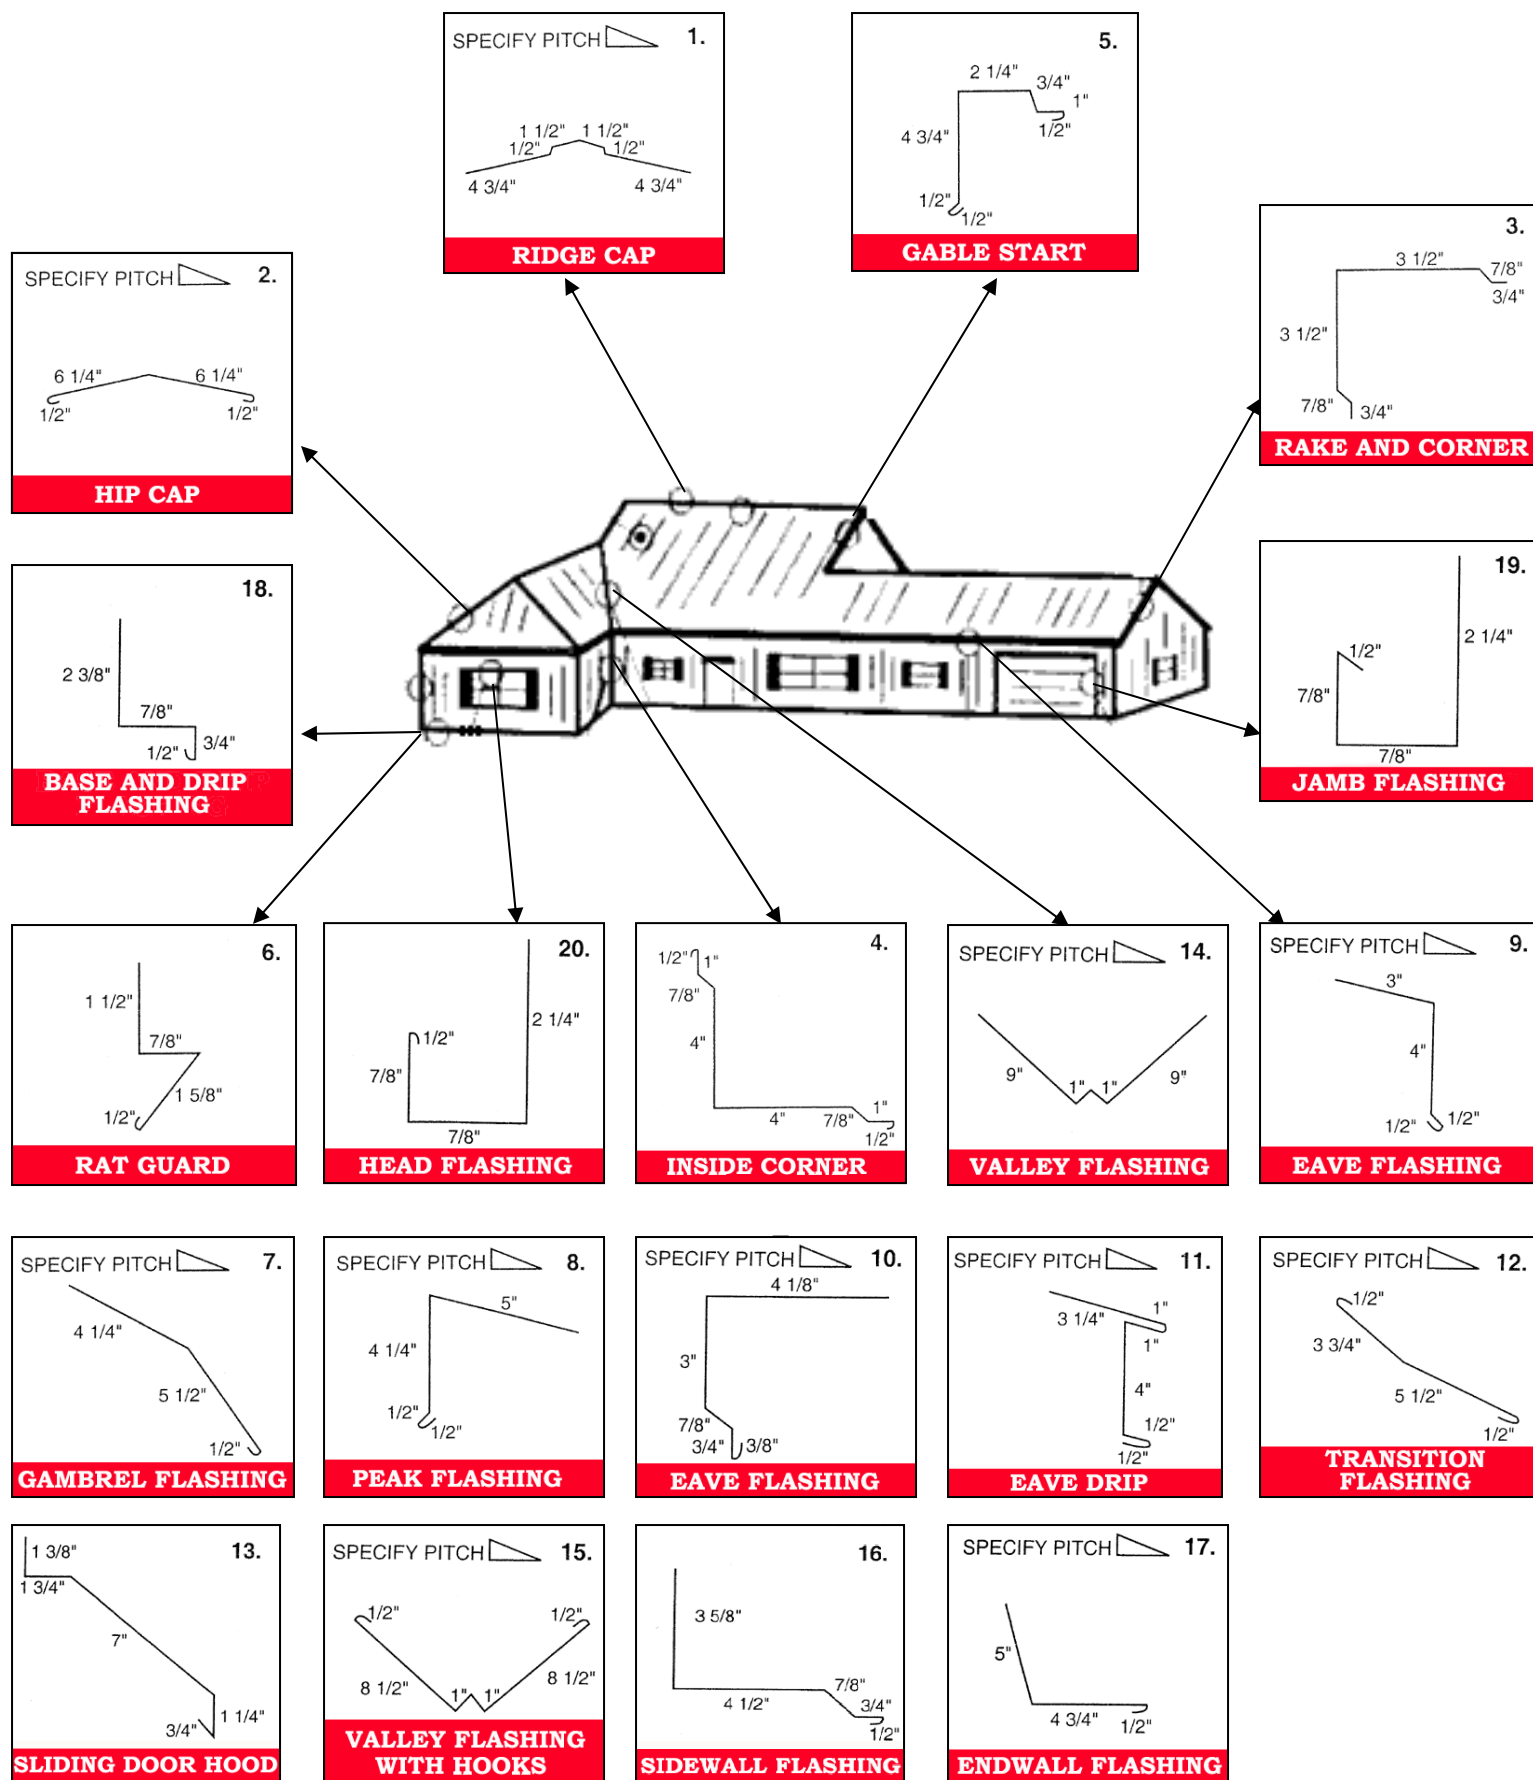

## Goldin Choice Standing Seam

There are 7 different varieties of Standing Seam Panels available in the Goldin Choice series of profiles. From the 1" snap seam with a slotted strip for fastening installed over solid decking to the 1 3/4" structural snap seam with clips made to span purlins, we have the right panel for the job.

Available in a multitude of colors in 26, 24, and 22 gauge material that will suite almost any need. There is also a mechanically seamed profile with clips available when the specifications require.
